Volume 296, no. 1

Guidelines for the submission of manuscripts v

Population code for tracking velocity based on cerebellar Purkinje cell simple spike firing in monkeys
J.D. Coltz, M.T.V. Johnson, T.J. Ebner (USA) 1

Peroxynitrite-induced modification of the *N*-methyl-D-aspartate receptor in the cerebral cortex of the guinea pig fetus at term
S.A. Zanelli, Q.M. Ashraf, M. Delivoria-Papadopoulos, O.P. Mishra (USA) 5

The reversal potential of Ca^{2+}-activated Cl^- currents indicates that chick sensory neurons accumulate intracellular Cl^-
J.L. Kenyon (USA) 9

Weightlessness during spaceflight results in enhanced synapse formation in a fish brain vestibular nucleus
M. Ibsch, R.H. Anken, H. Rahmann (Germany) 13

Evidence against association of the FE65 gene (APBB1) intron 13 polymorphism in Alzheimer's patients
S.Y. Guénette, L. Bertram, A. Crystal, B. Bakondi, B.T. Hyman, G.W. Rebeck, R.E. Tanzi, D. Blacker (USA) 17

Subthreshold 5-Hz repetitive transcranial magnetic stimulation of the human primary motor cortex reduces intracortical paired-pulse inhibition
A. Peinemann, C. Lehner, C. Mentschel, A. Münchau, B. Conrad, H.R. Siebner (Germany, United Kingdom) 21

Antinociceptive effect of a group II metabotropic glutamate receptor antagonist in the thalamus of monoarthritic rats
F.L. Neto, J.M. Castro-Lopes (Portugal) 25

Tryptamine derivatives as non-competitive *N*-methyl-D-aspartate receptor blockers: studies using [^{3}H]MK-801 binding in rat hippocampal membranes
M.L. Berger (Austria) 29

Naming of animals and tools: a functional magnetic resonance imaging study of categorical differences in the human brain areas commonly used for naming visually presented objects
T. Okada, S. Tanaka, T. Nakai, S. Nishizawa, T. Inui, N. Sadato, Y. Yonekura, J. Konishi (Japan) 33

Superoxide radical scavenging and attenuation of hypoxia-reoxygenation injury by neurotransmitter ferric complexes in isolated rat hepatocytes
A.G. Siraki, J. Smythies, P.J. O'Brien (Canada, UK, USA) 37

Formation of hydroxy radicals by environmental estrogen-like chemicals in rat striatum
T. Obata, S. Kubota (Japan) 41

Changes in electromyogram during upper limb muscle contraction induced by resistive loaded breathing in humans
D. Turner, P. Sumners, S. Jackson (UK) 45

Testosterone stimulates rapid secretory amyloid precursor protein release from rat hypothalamic cells via the activation of the mitogen-activated protein kinase pathway
S. Goodenough, S. Engert, C. Behl (Germany) 49

Increased protein levels of serotonin transporter in frontal cortex of patients with Down syndrome
T. Gulesserian, E. Engidawork, N. Cairns, G. Lubec (Austria, UK) 53

Evidence for existence of immobilization stress-inducible semicarbazide-sensitive amine oxidase inhibitor in rat brain cytosol
T. Obata, Y. Yamanaka (Japan) 58

Diminution of training-induced transient motor cortex plasticity by weak transcranial direct current stimulation in the human
K. Rosenkranz, M.A. Nitsche, F. Tergau, W. Paulus (Germany) 61

Announcement 64

Volume 296, nos. 2–3

Confocal microscopic analysis reveals sprouting of primary afferent fibres in rat dorsal horn after spinal cord injury
S.T. Wong, B.A. Atkinson, L.C. Weaver (Canada) 65

CP 55,940 protects against ischemia-induced electroencephalographic flattening and hyperlocomotion in Mongolian gerbils
D. Braida, M. Pozzi, M. Sala (Italy) 69

Ciliary neurotrophic factor increases muscle fiber number in the developing levator ani muscle of female rats
M.E. Peroulakis, N.G. Forger (USA) 73
Dopamine D_2-like receptor binding in the brain of male Japanese quail (*Coturnix japonica*)
N. Levens, T.A. Green, C.K. Akins, M.T. Bardo (USA) 77
The effects of ascorbic acid on dopamine-induced death of PC12 cells are dependent on exposure kinetics
H.Y. Choi, J.H. Song, D.K. Park, G.M. Ross (Canada, South Korea) 81
Prenatal choline supplementation alters hippocampal *N*-methyl-D-aspartate receptor-mediated neurotransmission in adult rats
D. Montoya, H.S. Swartzwelder (USA) 85
Lethal forebrain ischemia stimulates sphingomyelin hydrolysis and ceramide generation in the gerbil hippocampus
M. Nakane, M. Kubota, T. Nakagomi, A. Tamura, H. Hisaki, H. Shimasaki, N. Ueta (Japan) 89
Confocal quality imaging of afferent neurons from semi-thin sections of *Drosophila* ganglia
N.M. Tyrer, J. Maddison, D. Shepherd, D.W. Williams (UK) 93
Accelerated functional recovery and neuroprotection by agmatine after spinal cord ischemia in rats
G.M. Gilad, V.H. Gilad (Israel) 97
An *N*-methyl-D-aspartate antagonist, MK-801, preferentially reduces electroconvulsive shock-induced phosphorylation of p38 mitogen-activated protein kinase in the rat hippocampus
Y.M. Ahn, S.W. Oh, U.G. Kang, J.-B. Park, Y.S. Kim (South Korea) 101
Directional rectification of gap junctional voltage gating between Dieters cells in the inner ear of guinea pig
H.-B. Zhao (USA) 105
Stimulation of the mesencephalic locomotor region inhibits the discharge of neurons in the superficial laminae of the dorsal horn of cats
A.M. Degtyarenko, M.P. Kaufman (USA) 109
Reduced production of lactate during hypoxia and reoxygenation in astrocytes isolated from stroke-prone spontaneously hypertensive rats
K. Yamagata, M. Tagami, K. Ikeda, T. Noguchi, Y. Yamori, Y. Nara (Japan) 113
The *N*-methyl-D-aspartate antagonistic and opioid components of *d*-methadone antinociception in the rat spinal cord
B.A. Chizh, H. Schlütz, M. Scheede, W. Englberger (Germany) 117
Nociceptin is a potent inhibitor of N-type Ca^{2+} channels in rat sympathetic ganglion neurons
K.P. Larsson, U.B. Olsen, A.J. Hansen (Denmark) 121
Transient up-regulation of γ-aminobutyric $acid_A$ receptor binding by lubeluzole after neocortical specify lesion in rats
M. Que, O.W. Witte, K. Zilles (Germany) 125
Cloning and expression of *MP13* gene from rat hippocampus, a new factor related to guanosine triphosphate regulation
Z. Feng, J.-S. Hong, Q. Qi, Y. Han, B. Wilson, M. Iadarola, N. Tiao, G. Bing (People's Republic of China, USA) 129
Recruitment plasticity of neuromuscular compartments in exercised tibialis anterior using echo-planar magnetic resonance imaging in humans
H. Akima, M. Ito, H. Yoshikawa, T. Fukunaga (Japan) 133
Spatial memory and learning deficits after experimental pneumococcal meningitis in mice
A. Wellmer, C. Noeske, J. Gerber, U. Munzel, R. Nau (Germany) 137
5-Hydroxytryptamine$_{2A}$ and 5-hydroxytryptamine$_{1B}$ receptors are differently affected by the monoamine oxidase A-deficiency in the Tg8 transgenic mouse
C. Bou-Flores, G. Hilaire (France) 141
Hypobaric hypoxia induces Fos and neuronal nitric oxide synthase expression in the paraventricular and supraoptic nucleus in rats
Y. Luo, C. Kaur, E.A. Ling (Singapore) 145
The influence of pallidal deep brain stimulation on striatal dopaminergic metabolism in the rat
W. Meissner, G. Paul, T. Reum, R. Reese, R. Sohr, R. Morgenstern, A. Kupsch (Germany) 149
Mediation of the cardiovascular response to spinal γ-aminobutyric $acid_B$ receptor stimulation by adenosine A_1 receptors in anesthetized rats
B.S. Kim, H.C. Koh, J.S. Kang, H. Lee, I.C. Shin, S.A. Om, J.H. Kang (South Korea) 153
Roles of glutamate receptor subtypes in the development of vestibular compensation after unilateral labyrinthectomy in the guinea pig
K. Hirate, A. Kitayama, N. Furuya (Japan) 158
A pore-lining glutamic acid in the rat olfactory cyclic nucleotide-gated channel controls external spermine block
S.T. Nevin, J.L. Haddrill, J.W. Lynch (Australia) 163
Mutation analysis of the *N*-methyl-D-aspartate receptor NR1 subunit gene (GRIN1) in schizophrenia
K. Sakurai, M. Toru, K. Yamakawa-Kobayashi, T. Arinami (Japan) 168
Pure autonomic failure in association with human α-synucleinopathy
K. Arai, N. Kato, K.-i. Kashiwado, T. Hattori (Japan) 171
Association of apolipoprotein E polymorphism to clinical heterogeneity of multiple sclerosis
C. Ballerini, D. Campani, G. Rombolà, B. Gran, B. Nacmias, M. Pia Amato, G. Siracusa, L. Bartolozzi, S. Sorbi, L. Massacesi (Italy) 174
